Single Point of Entry

Dial one number to reach any of your virtual conference rooms. You no longer have to keep track of each dial-in number for each virtual conference room.

Numbers Reach Your Plaza

Multiple numbers reach the same conference plaza/facility – US domestic number is included, US toll-free can be added, as well as international numbers.

Make Changes Through Web Portal

Use the web portal to manage and make adjustments such as changing the conference label, room number, user PINs and leader PINs

Custom Greetings

Play your own custom greeting when callers dial in (e.g. "Welcome to the Smart Choice Communications Conferencing Facility")

Conference Call Report

Generate and view details about conference calls to view essential insights like duration and participants to optimize business performance.

Customization Per Conference Bridge

- **Call Recording** – Replay and download recorded calls through the web portal (additional charges may apply for storage)
- **Enter/Leave Sounds** – Silences sounds when callers join/leave the conference room
- **User Count** – Announces the number of users in the conference
- **Announce Users** – Records the name of each caller and plays it when they join the conference
